	Fashion Design and Merchandising		
	Merchandising Management - Fashion Merchandising		

The data provided above is intended to provide information about the number of students who have graduated from a particular type of academic program. Because the programs may be offered at one or more of the campuses listed above, the rates do not and cannot reflect the on-time completion rate for a specific academic program at a specific campus.

If the number of students who completed a program during the award year was less than ten (10), for privacy reasons, the institution will not disclose this information (shown as N/A).

Frequently Asked Questions

ON-TIME COMPLETION RATES

1. Who is considered a completed student?

A completed student has completed the graduation requirements for their program and is classified as a graduate of the school.

2. How are On-Time Completion Rates calculated?

These rates are calculated using the gainful employment formula in order to comply with U.S. Department of Education requirements. The statistics track all students who completed their program within the date range noted above and have reached completion within the program's designed time period. For example, for a two-year program, the on-time completion rate would include all completed students who had started their program at this school two years prior.

Campus: Collins College - Phoenix

Graduation Rate	
Number of first-time, full-time undergraduate students who started between 7/1/2006 - 10/15/2006	**The percent who completed within 150% of the normal time period**
505	38%

Frequently Asked Questions

GRADUATION RATE

1. Who is a first-time student?

A first-time student has no prior postsecondary experience before enrolling at this campus. This means that a student who attended another college, university or other postsecondary school before enrolling at this school is not included in the calculation. The rate also does not include students initially enrolled part-time, taking individual classes (as compared to enrolling in a full program), or only auditing classes.

2. How is the Graduation Rate calculated?

The rate is calculated using the Student Right-to-Know formula in order to comply with U.S. Department of Education requirements. The statistics track all first-time, full-time and certificate or degree-seeking undergraduate students who began school during the date range noted above and have completed within 150% of the normal program length. For example, for a two-year program, the graduation rate would include students who had completed within three years of beginning the program. Information pertaining to the Graduation Rates of all postsecondary institutions recognized by the U.S. Department of Education may be found on the College Navigator website.

Given the fact that all of the rates reflected above are based on historical data and were subject to varying levels of audit and re-interpretation, students should not rely on them as an implicit or explicit representation or promise of future outcomes or employability following completion of a program of study. Indeed, there are numerous factors that affect a student's ability to graduate and secure employment over which we have little or no control. Therefore, our school cannot and does not guarantee or estimate the likelihood of on-time completion, graduation, or employment for any student.

If you have questions regarding these employment rates, please contact us at 1-855-708-2085.

Accrediting Council for Independent Colleges and Schools (ACICS)

Reporting Period:
• 7/1/2012 through 6/30/2013

Date Submitted
• 11/2013

Rate Calculation:
The scope of ACICS recognition by the Secretary of Education is defined as accreditation of private postsecondary institutions offering certificates or diplomas, and postsecondary institutions offering associate, bachelor's, or master's degrees in programs designed to educate students for professional, technical, or occupational careers, including those that offer those programs via distance education.

(PF+PR)/(G-U)

PF = Placed in Field, PR = Placed in Related Field
G = Graduates and Completers, U = Unavailable for Work

• "Placed in Field" means the position requires a direct use of the skills taught in the program
• In applying this ACICS definition, we classify graduates as employed in some cases if they are employed on a part-time or temporary basis or in a non-traditional capacity.
• "Placed in Related Field" means the position requires an indirect use of the skills taught in the program.
• A "graduate" is (all of the following):
  • Has achieved a GPA of 2.0 or greater at graduation.
  • Has successfully passed all courses in the program or substitute courses permitted by the institution.
  • Has attained required competencies or speed levels in all courses.
  • Has met all clinical, internship, and externship requirements.
  • Has satisfied all other academic requirements for graduation.
  • Has satisfied all non-academic requirements for graduation, such as payment of tuition and fees, return of books, etc.
  • Has received the appropriate credential.
  • Ceased enrollment in the program at the institution.
• A "completer" is a student who is no longer enrolled in the institution and who has either completed the time allowed or attempted the maximum allowable number of credits for the program of study but did not accomplish one of the following graduation requirements:
  • Achieve a GPA of at least 2.0.
  • Attain required competencies or speed skills.
  • Satisfy non-academic requirements (e.g., outstanding financial obligations).
• "Unavailable for work" includes graduates who are unavailable for employment because of pregnancy, death, or other health-related situations, continuing education, or military service, as well as students who are not eligible for employment in the United States because of visa restrictions, or who are completers and graduates of a stand-alone English as a Second Language program.
• Spouses and dependents of military personnel who have moved due to military transfer orders should be included.
• Graduates are not considered "Unavailable for work" if they have relocated from the area, declined the use of placement services, or expressed a lack of interest in seeking employment. Also, graduates who may be working out of their home cannot be listed under this category. Instead, they must be listed as employed if documented evidence is available or not working if documentation cannot be obtained.

Arizona State Board for Private Postsecondary Education (AZPPSE)

Reporting Period:
• 7/1/2012 through 6/30/2013

Date Submitted
• 11/2013

Rate Calculation:
The Board licenses and regulates private postsecondary educational institutions operating vocational and degree programs.

Placement Rate: (A + B)/(C-D) = 0
A = Based upon the total number of graduates during the reporting period, "A" is the number of graduates placed in their field of study.
B = Based upon the total number of graduates during the reporting period, "B" is the number of graduates placed in a related field of study.
C = Total number of graduates
D = Total number of graduates "not available for placement" (i.e. due to health related situations, continuing education, military service).
